

When Student Living Meets Smart Tech.

Unite Students simplifies system delivery with Edgenexus.

“

Having technically reviewed many of the solutions available in the market place, we felt that Edgenexus hit all the functionality of the big players, at a very reasonable price point for the feature set available.

**Ben Tyson, IT Operations Manager,
UNITE Group**

”

The Challenge

Unite Students is the UK's leading student accommodation provider, supporting over 76,000 tenants across 25 cities.

Their IT team faced a critical challenge: they needed a robust, easy-to-manage solution to help streamline access to their web-based services, from customer portals to internal tools.

The Solution

Unite Students deployed Edgenexus EdgeADC to manage their application traffic in a way that was intuitive, powerful, and resilient.

- EdgeADC handled load balancing across key web services
- Hosted within their own infrastructure for maximum control and flexibility

The Results

- Improved service uptime for 76,000+ users
- Zero reliance on external specialists or complex training
- Ongoing operational savings thanks to a smarter, simpler architecture
- More time for IT teams to focus on strategic projects instead of fire-fighting infrastructure

Why Edgenexus

Why They Chose Us:

- No fuss, no fanfare, no specialist knowledge required.
- flightPATH lets the team route and rewrite without coding.
- Big-brand features, small-brand cost
- Keeps systems humming, so students stay connected.

Favourite Feature

“We wanted a simple, cost-effective ADC that just worked, Edgenexus delivered on all fronts.”

flightPATH™

Drag. Drop. Rule your traffic.

No coding. No complexity. Just precision. control and crystal-clear visibility.
